

Entrepreneurship

(From Left to Right) Dr. Jack Soper; Alyse Viggiano, Ariana Smith-Bland, Chris Romeo, Joe McKenna, Jason Therrien, Charlie Trouba

October, 2009

Jason Therrien, a *Master Member* of the Entrepreneurs Association had dinner last night at Pizzazz with students from the Entrepreneurs' House (Alyse Viggiano, Charlie Trouba, & Ariana Smith-Bland) and members of the 2009 *Immersion Week* team (Caitlin Gorie, Chris Romeo, & Joe McKenna).

In a wide ranging discussion, Jason talked about starting his integrated marketing business (Thunder::tech) from a John Carroll dorm room. He shared his ideas on selling to your customers, hiring your associates, the impact of his business on family life, and just about every other question the students could think of! He also quizzed the students on their ideas for their future and how they saw it unfolding. It is great to have members like Jason in the EA, who are willing to give back. The students had a great opportunity to learn from a person who was in their same seat just over 10 years ago!
