Volume 1, Issue 1

September 7, 2010

What is commuter services?

Commuter services, which is run out of the Office of Orientation and Leadership, is here to provide programs and resources for all commuter students that attend John Carroll.

Although first-year students are sure to benefit greatly from participating in activities from commuter services, all commuter students from any grade level are welcome and encouraged to join in and explore what commuter

services has to offer.

There are a variety of services in which we can help you with. First, as commuters, it is likely you are looking for places on campus where you can spend time between classes. By visiting our website, <http://www.jcu.edu/campuslife/offcampus>, a list of places on and near campus can be found for this.

Also, commuter services can help you set up a locker on campus to

make your day easier. All you need to do is provide the lock and let us know which locker you picked as well as provide contact information. After this, we can register the locker for you.

Overall, commuter services is here to help give you the college experience you want, and we are willing to help in anyway possible. Do not hesitate to email, call, or stop by our office. We look forward to a great school year with you!

Meet your Graduate Assistant!

Hey everybody! It has been wonderful getting to know some of you and I look forward to meeting everyone and working with you all this upcoming year.

As a JCU graduate of 2010, I fully understand the JCU experience from the perspective of an undergrad, and I am here to help you make your experience the best it can

be!

My main role is to serve as the coordinator for commuter services, a position that didn't exist until this year. This is exciting news because it means that on campus, there is now an advocate exclusively for commuter students.

Through this role, I want to improve

communication, promote inclusion, and increase awareness in commuter students of all the events and activities they can take advantage of while they are JCU students.

I would love to get feedback about what you want out of your undergrad experience and how commuter services can help. I look forward to
