

Interdisciplinary Concentrations

In addition to the required major and optional minor programs, the university also offers a number of interdisciplinary concentrations and programs as options to supplement and strengthen specific degree majors. Interdisciplinary concentrations consist of approximately 18 to 39 semester hours of course work in which the student has attained at least a 2.0 (C) average. To qualify for a concentration students must complete all the requirements of the related major as specified in the *Bulletin*. A completed concentration is noted on the transcript. For further details concerning concentrations, programs, and recommended courses, students are advised to contact the coordinator/director or the chairperson of a department participating in the concentration or program. The contact secretary for all concentrations is located in the Department of Political Science in the Administration Building.

Concentrations

The following interdisciplinary concentrations are available:

Economics/Mathematics — Students must major in economics or mathematics. Both majors must take EC 201-202, 301, 302; MT 135-136, and 233. Economics majors must complete MT 420 and two mathematics electives numbered above 300. Mathematics majors must complete EC 410 and one other upper-division economics elective. **Coordinators:** Dr. Dwight Olson, Department of Mathematics and Computer Science; Dr. Walter O. Simmons, Department of Economics and Finance.
