## Agenda

1. Welcome and Agenda
2. Approval of Minutes from October 27
3. Approve Process Language Changes

**Interim Policies:** If a policy is required to be in place for regulatory compliance, the committee may vote to implement it as an interim policy and then proceed with the normal review process to put the policy in place permanently.

**Minor Changes:** If the Committee reviews an existing policy with no changes (or only minor ones) on the regular review cycle and there are no comments from the community, then the vote to send the policy for comment will also be construed to be a vote to approve the policy for another review cycle. Updates to titles or inconsequential adjustments to procedures may be made with a single vote and no community comment.

4. First Review of Cybersecurity Policies and Documents
